RE: The Cannons Engineering Corporation site in Bridgewater, MA;  
the Cannons Engineering Corporation site in Plymouth, MA;  
and the Tinkham Garage site in Londonderry, MA.

Dear Mr. Thomas:

This letter is being written in response to correspondence received April 11, 1986 from Mr. Merrill S. Hohman, notifying Teknor Apex of potential liability with respect to the above referenced sites.

At this point, after discussions with key operating management personnel, our solid and liquid waste disposal contractors, and a review of hazardous waste manifests we conclude to the best of our knowledge that we have never been involved with the disposal of chemical waste substances at the sites in question.

We, therefore, feel no obligation to participate in the proposed clean-up activities and would appreciate your confirmation of our position in this matter.

Should there be further questions or additional information required, please contact me at the address and/or telephone number provided.

Very truly yours,

TEKNOR APEX COMPANY

RE: The Cannons Engineering Corporation Case Sites

Dear Mr. Thomas:

Thank you for your prompt response to our recent inquiry. We have reviewed the documents sent by you which, according to the Agency, are further evidence of Teknor Apex Company's involvement with the CEC Sites.

Upon examination, it appears that each document contained therein relates to the one transaction Teknor Apex had with Cannons on October 14, 1979. The total amount paid in that transaction was \$826.00 for disposal of 3200 gallons.

From the dates and nature of the documents under cover of your July 2, 1986 letter, we can only conclude - as we have urged in our previous communications - that the October 14, 1979 transaction with Cannons was unique and not repeated.

If you have any further information pertaining to other transactions with Cannons, please let us know so that our internal investigation may be completed.

Very truly yours,

TEKNOR APEX COMPANY
